

20th Symposium on Astroparticle Physics in the Netherlands

Thursday, 26 March 2015

session 3 (16:00 - 17:30)

time	[id] title	presenter
16:00	[15] Update on the 3.5 keV X-ray line from galaxies and clusters	FRANSE, Jeroen
16:15	[16] Distinguishing dark matter and point sources in gamma rays with 1-point statistics	GASKINS, Jennifer
16:30	[17] Non-parametric determination of the local Dark Matter density	SILVERWOOD, Hamish
16:45	[19] Disc formation from stellar tidal disruptions	BONNEROT, Clément
17:00	[20] Multi-messenger astronomy of binary neutron mergers	HOTOKEZAKA, Kenta
17:15	[14] Modulation in radioactive decay	GJALTEMA, Froukje
