

20th Symposium on Astroparticle Physics in the Netherlands

Friday, 27 March 2015

session 5 (10:30 - 12:30)

time	[id] title	presenter
10:30	[23] Radio detection of extensive air showers with LOFAR	BUITINK, Stijn
11:00	[24] Using cosmic rays to calibrate a radio telescope	NELLES, Anna
11:15	[25] Probing atmospheric electric fields in thunderstorms through radio emission from air showers	TRINH, Gia
11:30	[36] Radio detection of extensive air showers at the Pierre Auger Observatory	SCHULZ, Johannes
11:45	[33] Commissioning of CHEC-M - A prototype for a dual mirror SST camera for CTA	BALZER, Arnim
12:00	[34] Central camera testing for CTA	BONARDI, Antonio
12:15	[35] Inverse compton emission from galaxy clusters	BARTELS, Richard
