

# GCOS Workshop May 2021

## Tuesday, 18 May 2021

### Magnetic fields and impact on cosmic rays (14:00 - 16:00)

-Conveners: Antonella Castellina

time	[id] title	presenter
14:00	[10] galactic and extragalactic magnetic fields and their relation to UHECR propagation	HAVERKORN, Marijke
14:20	discussion	
14:30	[11] deflection of charged particles in B fields (--> particle astronomy?)	UNGER, Michael
14:50	discussion	
15:00	[12] influence of distribution of local matter density in Universe on arrival directions	FARRAR, Glennys
15:20	discussion	
15:30	[13] astronomy with charged particles, nu and GW	LIPARI, Paolo
15:50	discussion
